Mounting Hole Diameter:
0.137 inches
Overall Length:
0.359 inches
Overall Width:
0.359 inches
Overall Thickness:
0.094 inches
Function For Which Designed:
Boring and profiling and turning
Mounting Method:
Plain hole
Features Provided:
All surfaces ground
Inscribed Circle Diameter:
0.250 inches
Angular Measurement And Type:
60.0 degrees included
Daint Dading
Point Radius:
0.016 inches
0.016 inches
0.016 inches Special Features:
0.016 inches Special Features: Screw-on
0.016 inches Special Features: Screw-on Material:
0.016 inches Special Features: Screw-on Material: Carbide
0.016 inches Special Features: Screw-on Material: Carbide Material:
0.016 inches Special Features: Screw-on Material: Carbide Material: Carbide
0.016 inches Special Features: Screw-on Material: Carbide Material: Carbide Shape:
0.016 inches Special Features: Screw-on Material: Carbide Material: Carbide Shape: Triangular
0.016 inches Special Features: Screw-on Material: Carbide Material: Carbide Shape: Triangular Shelf Life:
0.016 inches Special Features: Screw-on Material: Carbide Material: Carbide Shape: Triangular Shelf Life: N/a
0.016 inches Special Features: Screw-on Material: Carbide Material: Carbide Shape: Triangular Shelf Life: N/a
0.016 inches Special Features: Screw-on Material: Carbide Material: Carbide Shape: Triangular Shelf Life: N/a Unit Of Measure:
0.016 inches Special Features: Screw-on Material: Carbide Material: Carbide Shape: Triangular Shelf Life: N/a Unit Of Measure: Demilitarization:
