Mounting Hole Diameter:

0.251 inches

Overall Thickness:

0.250 inches

Function For Which Designed:

Threading

Mounting Method:

Countersunk hole

Features Provided:

Coated

Inscribed Circle Diameter:

0.625 inches

Angular Measurement And Type:

60.0 degrees bevel and 60.0 degrees included

Special Features:

Truncated triangle; vee thread

Material:

Carbide

Material:

Carbide

Shape:

Triangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T171-I
