Mounting Hole Diameter:

0.200 inches

Overall Thickness:

0.187 inches

Function For Which Designed:

Grooving

Mounting Method:

Countersunk hole

Cutter Direction For Which Designed:

Right-hand

Inscribed Circle Diameter:

0.500 inches

Angular Measurement And Type:

60.0 degrees included

Special Features:

Truncated; double countersunk hole

Material:

Carbide

Material:

Carbide

Shape:

Triangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T171-I
