**End Application:**

19 f15e aircraft

**Shank Type:**

Straight

**Reamer Type:**

Shank

**Flute Design:**

Straight

**Flute Type:**

Integral

**Criticality Code Justification:**

Feat

**Special Features:**

Designed primarily for production applications in aluminum and mild steel. The process includes development of the starting hole, cold working the hole, and post-sizing of the hole to accommodate the required interference fastener or fastening device. Used on a variety of puller units for rework applications in the cold expansion process; standard tool diameter number 4-4-n

**Material:**

Steel
