Mounting Hole Diameter:

0.203 inches

Function For Which Designed:

Turning

Mounting Method:

Countersunk hole

Cutter Direction For Which Designed:

Left-hand or right-hand

Criticality Code Justification:

Feat

Point Radius:

0.032 inches

Special Features:

Grade 660; tic coated; 15 degree positive chip control; style tnms; size 432

Material:

Tungsten carbide

Material:

Tungsten carbide

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T171-I
