| Overall Length:                      |
|--------------------------------------|
| 0.748 inches                         |
| Overall Width:                       |
| 0.748 inches                         |
| Function For Which Designed:         |
| Boring                               |
| Unit Package Quantity:               |
| 5                                    |
| Unit Package Type:                   |
| Вох                                  |
| Mounting Method:                     |
| Counterbored hole                    |
| Cutter Direction For Which Designed: |
| Right-hand                           |
| Features Provided:                   |
| Chipbreaker                          |
| Point Radius:                        |
| 0.012 inches                         |
| Special Features:                    |
| Carbide p30, machine steel           |
| Shape:                               |
| Rectangular                          |
| Shelf Life:                          |
| N/a                                  |
| Unit Of Measure:                     |
|                                      |
| Demilitarization:                    |
| No                                   |
| Fiig:                                |
| T171-I                               |
|                                      |
