End Application:

Ground support equipment f 15 a-e

Flute Design:

Straight

Product Name:

Force tec finishing reamer

Special Features:

Straight fluted, piloted finish reamers are designed to cut class 1 retainers to the sizes listed in fti-9705. The non-cutting pilot will fit into the retainer only after installation. Finish reamers are not required for class 2 or class 3 installation. All finish reamers are cobalt.
