Overall Length:

0.5 inches

Body Inside Diameter:

0.2525 inches

Product Name:

Bushing, drill, jig

Special Features:

Material is durable stressproof steel, heat treated to achieve rc 62-64 id hardness; assembly identification number 30r0165g01; fmf application ref f414-ge-400; set, repair bypass duct shear plate

Material:

Steel

Material Specification:

Rc62-64 id hardness military standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535k0
