Current Type:

Ac

Usage Design:

Any acceptable

Structural Design:

Cylinder

Steam Heated Cylinder:

Included

Err Default:

Err default

Voltage In Volts:

230.0

Phase:

Three

Special Features:

With roll guard, metalmesh padding on rollers, moisture and fungus resistant treatment on components

Frequency In Hertz:

60.0

Specification Or Standard:

1 class and a grade and 2 size and 1 type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T155-e
