Speed Adjustments:

Single

Current Type:

Ac

Maximum Load Rating:

5.9 kilograms

Usage Design:

Shipboard

Cylinder Material:

Metal

Cylinder Diameter:

20.3 inches

Extraction Method:

Centrifugal

Unloading Method:

Manual

Horizontal Partition:

Not included

Product Name:

Top-load washer-mechanical non-coin

Voltage In Volts:

222.0 and 240.0

Phase:

Single

Special Features:

Average hot water usage per cycle 4.1 gal; total water usage per cycle 30 gal; breaker/fuse requirement-10amps; cylinder volume (cu.Ft.) 3.2l; cylinder depth 17.4"; operating pressure 20.1 psi

Frequency In Hertz:

50.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T155-c
