Overall Length:

8.250 inches

Sealing Method:

Heat

Voltage In Volts:

120.0

Phase:

Single

Special Features:

40 to 80 psi pressure range, w/o cooling unit; 50 to 500 degrees f temp range; accomodates barrier matl and plastic film; bench mtd or portable; unit type clamping jaws; manual foot pedal operation; not continuous type; electrical data, not rated for hp; 1/4 in. W heat seal; no additional equipment furnished

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A507k0
