Sealing Method:

Heat

Voltage In Volts:

120.0

Phase:

Single

Special Features:

225 to 525 degrees f temp range; accomodates barrier matl and plastic film; bench mtd; unit type clamp jaw; 12 to 14 in. Lg jaw; automatic, motor operation; not continuous type; electrical data, not rated for hp; width of heat seal, a/a; w/o cooling unit; no additional equip0ment furnished

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A507k0
