Special Features:

Lightweight, portable, non-motorized, hand-operated rotary heat sealer has grooved sealing rollers. Use for making grooved seals or for sealing overlaps and splices in barrier material. Has two 150w preheater bars measuring 1 inch wide and 8-1/2 inch long. Sealing rolls are 1-1/2 inch diameter with a 1 inch face. One roller has a spring-loaded dial thermostat for regulating temperatures. The material is fed continuously into the sealer by hand. Temperature range is approximately 250 to 550 degrees fahrenheit. Operates on 120v ac, 60-cycle, single-phase power. Provided with a 6 foot power cord
