General Description:

The xerox 5400 is a compact, versatile xerographic copier that produces dry copies of outstanding quality, the first in approximately seven seconds, and subsequently at the rate of 45 per minute. Standard features are document handler and automatic two sided copying, copying various types of originals and an auxiliary paper tray. An optional feature is a 20 bin sorter. A built insensor monitors all operations, and will flash instructions in the event of a job interruption, <the copier remembers where the job left off>, or other need for operator action to resume normal operations
