General Description:

The copier is a full spectrum plain paper copier which delivers the first copy in 4.2 seconds and the first three copies in less than 10 seconds. Equipped with a 10 bin collator which automatically sorts and collates copies into finished sets. Also features contrast control of light, dark, and normal copies, two sided copies for originals up to 8 1/2x 14 in., versatility features include the capability of producing copies on label stock, clear and colored transparencies, as well as your own letterhead. The unique single-part toner system is encased in a cartridge which eliminates unnecessary toner spills and the concern for toner/ developer balance critical in other systems
