General Description:

Air power vacuum, single stage design, 10.750 in. Lg, 5 in. Vacuum, outside diameter 1.250 in., cylinder shape, aluminum alloy, includes exhaust muffler, aluminum corrugated paper, outside dia. 3.250 in., max vacuum level 28 in. Hg, max vacuum flow at 0 in. Hg, minus .20 standard cubic ft per min., air consumption at 80 psi 22 scfm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
