Mounting Type:

Floor

Overall Height:

53.000 inches

Current Type:

Ac

Frequency Rating:

60.0 hertz

End Application:

Copy system total 2-sided

Support Method:

Cabinet

Voltage Rating:

230.0 volts

Maximum Width:

172.000 inches

Minimum Width:

40.000 inches

Special Features:

L.E.D. Display, two tower simplex or duplex operation, auto cylinder separation, auto master insertion/ejection, auto recycling, auto blanket cleaner, forward and reverse inching, d.C. Drive, copy sentry, doubles detector/eliminator, electronic touch type controls, I.E.D. Display, vam kompac 11 moisture units, q.A. Ink systems, safeguard features, telescopic backstop, unibody paper feeder guides, ink ductor rollers shut off, vacuum feed with shut off valve, quick release pull out rollers, master converter with doubles detector, variable line input transformer (200-250vac).

Functional Description:

Reproduce copies

Type/model Designation:

Tcs-9

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T335-b
