Photolithographic Plate Processing Machine - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/3610-01-426-0686

Ac Voltage Rating:
Between 220.0 volts and 240.0 volts
Frequency Rating:
Between 50.0 hertz and 60.0 hertz
Installation Design:
Floor
Operation Method:
Push button
Feed Type:
Roll
Processing Time:
2.0 per minute plate
Transfer Area Maximum Length:
432.0 millimeters
Transfer Area Maximum Width:
350.0 millimeters
Platelength:
Between 300.0 millimeters and 508.0 millimeters
Platewidth:
Between 229.0 millimeters and 404.0 millimeters
Current Rating For Which Designed:
Between 16.000 amperes and 20.000 amperes
Warm Up Time In Minutes:
110
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A510f0
