End Application:

5 ton lox charging plant

General Description:

O/a diameter 15 in; length 16.750 in; type cryogenic, radial inflow, axial outflow, fixed nozzle area set 0.111; airbrake loaded; bearing system, oil hydrodynamic radia and thrust bearing; seseals, dry gas labyrinth; expander, outlet psia 20; inlet f -218; outlet f -305; inlet psia 132; fluid, air; flow rate, 72 lbs/min

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
