Overall Length:

78.000 inches

Overall Height:

42.500 inches

Overall Width:

28.000 inches

Special Features:

230/460 vac, 3 phase, 60 hz, 21/10.5 amps, 8.0 horsepower; 97% nitrogen purity, 3.0 standard cubic feet per minute continuous flow at regulated pressures from 50 to 4000 psig; dew point of minus 65 degrees f; full automatic operation, operating controls, visual pressure instrumentation and product sampling port; 115 standard cubic feet internal asme storage at 4000 psig

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
