A23900

Skid Mounted Oxygen-nitrogen Generating And Charging Plant - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/3655-01-426-3342

Overall Length:
78.000 inches
Overall Height:
48.000 inches
Overall Width:
28.000 inches
Special Features:
230/460 vac, 3 phase, 60 hz, 27/13.5 amps, 10.5 horsepower; 99.5% nitrogen purity, 3.0 standard cubic feet per minute continuous flow
at regulated pressures from 50 to 4000 psig; dew point of minus 65 degrees f; full automatic operation, operating controls, visual pressure
instrumentation and product sampling port; 115 standard cubic feet internal asme storage at 4000 psig
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
