**Overall Length:**

5.000 inches

**Overall Height:**

1.650 inches

**Overall Width:**

5.750 inches

**Current Rating:**

7.000 milliamperes

**Voltage In Volts And Current Type:**

230.0 ac

**General Description:**

The airflow controller provides power and control to the plusegun 8. A silent non-particulating switch incorporated into the controller allows ionizing voltages to be applied only when there is flow of air or nitrogen through the plusegun

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
