Body Material:

Steel

Mounting Provision:

Pin

Bore Diameter:

5.000 inches

End Application:

38055422996

Compressed Length:

21.312 inches

Extended Length:

59.687 inches

Design Characteristics:

Double acting single cylinder

Mounting Type And Location:

Trunnion center section

Port Location And Quantity:

1 piston rod end

Fsc Application Data:

Grader, road, motorized

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
