Body Material:

Any acceptable

Mounting Provision:

Threaded mounting studs

Tempurature Rating:

Not rated

Overall Height:

Any acceptable

Overall Width:

Any acceptable

Bore Diameter:

2.000 inches

Body Outside Diameter:

3.000 inches

Compressed Length:

112.125 inches

Extended Length:

207.125 inches

Mounting Provision Arrangement Style:

Two stud

Pressure Rating:

Not rated

Design Characteristics:

Double acting single cylinder

Mounting Type And Location:

Stud cylinder head end

Center To Center Distance Between Mounting Provisions:

3.000 inches

Port Location And Quantity:

1 piston rod end

Fsc Application Data:

Crane, wheel mtd

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
