Frame Material:

Steel

End Item Name:

Spruance class dd (963)

Usage Design:

Specific

Sheave Quantity:

2

Controlling Agency:

Exit sheave assembly., corrosion resistant tail guide winch

Sheave Mounting Position:

Vertical

Criticality Code Justification:

Feat

Special Features:

Items are being coded as critical to insure source inspection will be performed at the point of manufacture, prior to material receipt by the us navy or other dod components. These items are piece parts or end items in support of vital military hardware necessary to sustain the successful mission of the ships, submarines, and shore stations of the us navy. Critical features including, but not limited to, dimensions, tolerances/clearances, electronic characteristics, and metallurgical properties will bespecified for government q ar (quality assurance representatives) to insure the highest possible degree of quality and reliability of these parts being delivered under navicp contracts

Specification Data:

80020-624968-5 manufacturers specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T341-d
