Attachment Method:

Threaded shoulder drive

Manufacturer Thread Design Designation:

Timken roller bearing co series h

Drilled Hole Diameter:

2.000 inches

Cutting End Type:

Four cutting edges

Features Provided:

Tungsten carbide inserts

Cleaning Hole Location And Quantity:

1 center and 4 side

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A06000
