Mounting Type:

Column

End Application:

Compressors and support equipment

Weight:

288.000 pounds

Usage Design:

Dry or wet

Propulsion Method:

Air-motor

Feed Method:

Power

Rod Shank Type:

Any acceptable

Rod Shank Cross-sectional Shape:

Round

Mounting Characteristic:

Mounted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T203-b
