Mounting Type:

Wheel

Diameter:

49.0 millimeters

Wheel Quantity:

4

Weight:

320.000 pounds

Usage Design:

Dry or wet

Tire Type:

Pneumatic

Rod Shank Type:

Any acceptable

Tire Material:

Rubber

Rod Shank Cross-sectional Shape:

Any acceptable

Special Features:

Adapted to places in which noise emission must be reduced to a ; breaker operating weight 320 lbs; impact energy 150 foot/lb; 960 blows per minute at 8 gpm; 2 inch tool diameter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T203-b
