Steering Type:

Hydraulic

Furnished Items And Quantity:

1 lifting

Design Type:

Tandem

Power Source:

Diesel engine

Engine Manufacturer Name:

Any acceptable

Roll Quantity:

2

Minimum Weight:

4000.0 pounds

Rolling Width:

Between 28.000 inches and 36.000 inches

Drive Roll Diameter:

Between 22.000 inches and 24.000 inches

Drive Roll Width:

Between 28.000 inches and 36.000 inches

Steering Roll Diameter:

Between 20.000 inches and 24.000 inches

Steering Roll Width:

Between 26.000 inches and 36.000 inches

Special Features:

W/articulate steering, w/tiedown devices

Departure From Cited Document:

As modified by diesel engine, min operating wt, articulate steering, and 30 gal water tank for sprinkler system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T209-b
