Overall Length:

41.880 inches

Overall Height:

19.940 inches

Overall Width:

7.500 inches

End Application:

Capstan assem, seawolf class ssn

Product Name:

Wheel to wheel containment upper (stbd)

Special Features:

Mark iaw drawing using .25 inch characters die stamped with a round bottom, low stress die, remove all burrs and sharp edges

Functional Description:

Utilized to guide payout/take in of materials with capstan

Material:

Nickel and copper

Surface Treatment:

Paint

General Description:

Nickel/copper alloy, 41.88 in. L: 7.50 in. W; 19.94 in. H

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
