Product Name:

Concrete batching plant

Special Features:

Three compartments, 64 ton apache sqp, central lubrication system, cb-1 automatic control system, theoretical plant capacity is 200 yards per hour, complete single unit, moveable with one truck, designed for fast job-site set up, aggregate section has overhead storage 48.1 cubic yards/65 tons, has 12 cubic yard aggregate batcher, has 30" x 38'6" aggregate transfer conveyor, cement section has silo capacity of 1541 cubic ft/57 ton/385 bbl

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
