Overall Length:

6.750 inches

Overall Height:

5.375 inches

Overall Width:

4.812 inches

Pressure Rating:

60.0 pounds per square inch and 80.0 pounds per square inch

Special Features:

Cast housing totally encloses turbine wheel; at 60.0 psi, speed is 4000.0 vibrations per minute (vpm) and uses 18.0 cubic feet per minute (cfm) air; at 80.0 psi, speed is 4500.0 vpm, uses 21.0 cfm air with centrifugal force of 900.0 lbs. (4004.0 newtons), and nom. Noise level of 77.0 decibels; max. Weight of material in bin is 9000.0 pounds; air line connection on housing is internal 0.500 in.-npt; four 0.375 in. Nom. Through holes for mounting

Material:

Iron

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
