Design Type:

General utility

Shelf Type:

Flat

Rolling Element Location:

One at each corner of chassis

Nominal length:

72.000 inches

Nominal width:

62.000 inches

Nominal height:

66.000 inches

Shelf Length:

72.000 inches

Shelf Width:

62.000 inches

Special Features:

Used to transport flap sections throughout repair operations; b-1b aircraft age.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A500g0
