Overall Length:

0.870 inches

Outside Diameter:

2.120 inches

Overall Width:

0.870 inches

End Application:

Seawolf class ssn; valve relief

Bearings:

Not included

Lubrication Fitting:

Not provided

Axle Recess Diameter:

Between 0.500 inches and 0.501 inches

Special Features:

Drawing calls this: roller guide; wheel is made from 0.250 diam round bar; outer edges are chamfered with 0.03 radius; inside opening has a rim extending 0.06 inch on either side of wheel and 0.125 inch beyond indside diameter

Material:

Aluminum alloy

Material:

Aluminum alloy

Supplementary Features:

Material is astm b150 aluminum bronze rod, alloy c63200

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T307-v
