Body Material:

Steel

Integral Valve Operation Method:

Hydraulic

Design Characteristics:

Single acting single cylinder

First Piston Rod End Style:

External threaded

Piston Rod End Similarity:

Not identical

Mounting Type And Location:

Ring cylinder head end

Port Location And Quantity:

1 center section

Port Style:

Inverted flare

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
