Overall Diameter:

17.000 inches

End Application:

Loader, model 316a

Product Name:

Plate, alignment

Special Features:

Thickness is 0.75in; id is 14.003in, outside edge on one side has 30deg chamfer; six equally spaced through holes 0.25-28-unf-2b from outside sircumference to inside circumference

Material:

Steel

Surface Treatment:

Zinc

General Description:

Carbon steel per astm a-36; zinc plated iaw astm b633, type 1 sc 3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
