Fork Width:

Between 24.800 inches and 44.500 inches

Overall Height With Forks In Lowest Position:

90.500 inches

Fork/platform Maximum Free Lift Height:

62.000 inches

Lift Mechanism Type:

Hydraulic

Lift Actuation Method:

Powered

Prime Mover Type:

Electric motor

Maximum Load Rating:

9500.000 pounds

Product Name:

Side-loading trucklift. Model number vq45/4-usn-sb, serial number s60.052

Special Features:

Fourwheel drive, scr controlled; fourwheel hydraulic brake system; dead-man brake system actuated by seat switch; fourwheel powersteering (longitudinal, lateral, crab, turning on the spot); hour meter; weighing device; fire extinguisher; 2 flood lamps mounted on mast with red and yellow lenses; system voltage: 72.0 v; truck weight: 15, 960 lbs. Maximum including battery; includes cd-rom with manual, maintenance instructions and spare parts list

Style Designator:

Conventional

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A085a0
