Overall Length:

12.250 inches

Overall Height:

21.000 inches

Overall Width:

6.000 inches

Attachment Method:

Bolted plate

Usage Design:

Aircraft hoisting

Material:

Aluminum alloy, 6061 and steel

Material:

Aluminum alloy 6061 and steel

Supplementary Features:

Used as lift fixture no 1 nozzle diaphragm and combustion assembly, horizontal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30600
