Overall Length:

12.063 inches

Overall Height:

2.125 inches

Overall Width:

4.250 inches

Attachment Method:

Bolted plate

Usage Design:

Aircraft hoisting

Material:

Aluminum alloy, qq-a-601

Material:

Aluminum alloy a356.0 or aluminum alloy a712.0 or aluminum alloy a850.0 or aluminum alloy b443.0 or aluminum alloy b514.0 or aluminum alloy b850.0 or aluminum alloy c355.0 or aluminum alloy d712.0 or aluminum alloy 443.0 or aluminum alloy 213.0 or aluminum alloy 222.0 or aluminum alloy 242.0 or aluminum alloy 295.0 or aluminum alloy 319.0 or aluminum alloy 328.0 or aluminum alloy 355.0 or aluminum alloy 356.0 or aluminum alloy 514.0 or aluminum alloy 520.0 or aluminum alloy 535.0 or aluminum alloy 705.0 or aluminum alloy 707.0 or aluminum alloy 713.0 or aluminum alloy 771.0 or aluminum alloy 850.0 or aluminum alloy 208.0

Material Specification:

Qq-a-601 federal specification single material response

Surface Treatment:

Enamel

Surface Treatment:

Enamel, olive drab

Fsc Application Data:

Mounting kits, guided missile equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A30600
