Overall Length:

9.500 inches

Overall Height:

5.000 inches

Overall Width:

5.000 inches

Attachment Method:

Shackle

Usage Design:

Aircraft hoisting

Functional Description:

Used as a lifting eye adapter to handle low pressure turbine shaft

Supplementary Features:

C/o welded tube provided with three retaining sectors and a shackle

Fsc Application Data:

Kc-135r aircraft age.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30600
