Overall Length:

19.880 inches

Overall Width:

10.780 inches

Attachment Method:

Bolted plate

Usage Design:

Weapons system component

Warning Streamer:

Not included

Functional Description:

Used to interface between nav pod center section/lug beam to enable hoisting pods into/out of containers/onto mhu-141/m munitions handling trailer

Material:

Aluminum alloy, 6061

Material:

Aluminum alloy 6061

Fsc Application Data:

Low altitude navigation targeting infrared system for night

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30600
