Overall Length:

20.000 inches

Overall Width:

11.000 inches

Attachment Method:

Bolted

Usage Design:

Weapons system component

Functional Description:

Used to interface between nav pod pylon and lifting device

Fsc Application Data:

Low altitude navigation & targeting infrared system for night

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30600
