Overall Length:

180.000 inches

Overall Height:

26.000 inches

Overall Width:

2.000 inches

Attachment Method:

Bolted plate

Usage Design:

Elevator

Functional Description:

Used to adapt horizontal stabilizer to beam sling/transport dolly

Material:

Steel

Material:

Steel

Fsc Application Data:

Empennage/c-17 acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30600
