Overall Length:

14.500 inches

Overall Width:

1.180 inches

Attachment Method:

Bolted

Usage Design:

Aircraft engine accessory

Functional Description:

Used as adapter between hoisting bar and hp turbine rotor

Material:

Iron

Material:

Iron

Reference Data And Literature:

Serd no. 5097

Fsc Application Data:

F100-ge-100 engine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A30600
