**Overall Length:**

14.500 inches

**Overall Width:**

1.180 inches

**Attachment Method:**

Bolted

**Usage Design:**

Aircraft engine accessory

**Functional Description:**

Used as adapter between hoisting bar and hp turbine rotor

**Material:**

Iron

**Material:**

Iron

**Reference Data And Literature:**

Serd no. 5097

**Fsc Application Data:**

F100-ge-100 engine

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A30600
