Overall Width:

7.000 inches

Overall Length:

66.000 inches

Design Type:

Multiple leg

Lifting Capacity:

10000.000 pounds

Sling Material Type:

Chain

Functional Classification:

Hh-1.1

Functional Description:

Used for install/removal and handling of engine modules/fixtures in workbay areas; top of beam to end of chain 63.8 in. Lg

Fsc Application Data:

F117-pw-100 eng

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T215-g
