Overall Length:

65.000 inches

Overall Height:

2.500 inches

Overall Width:

21.000 inches

Attachment Method:

Hole

End Application:

F117-pw-100 engine

Usage Design:

Aircraft engine

Functional Classification:

Hh-1.1

Material:

Steel

Material:

Steel

Supplementary Features:

Load capaci type 1800 lbs

Fsc Application Data:

Sling cantilever

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A30600
