Overall Length:

17.000 inches

Overall Height:

2.500 inches

Overall Width:

0.500 inches

Attachment Method:

Bolted

Usage Design:

Aircraft hoisting

Functional Classification:

Hh-1.1

Functional Description:

Used to atch to combustor at 2 points for lift/lower w/hoist

Material:

Aluminum alloy

Type/model Designation:

A/m32a-102

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A30600
