Overall Length:

48.000 inches

Overall Height:

8.100 inches

Overall Width:

15.500 inches

Attachment Method:

Bolted plate

Usage Design:

Aircraft engine accessory

Functional Classification:

Hh.1-1

Functional Description:

Used to lift/handle high pressurecompressor front split case/load capaci type 140 pounds

Material:

Steel

Material:

Steel

Fsc Application Data:

F117-pw-100

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A30600
