Overall Length:

15.100 inches

Overall Height:

1.800 inches

Overall Width:

1.800 inches

Attachment Method:

Hook

Usage Design:

Aircraft engine

Functional Classification:

Hh-1.1

Special Features:

Max load cap 450 pounds

Functional Description:

Used to handle front end of the high pressure compressor rotor assembly

Material:

Steel

Material:

Steel

Fsc Application Data:

F117-pw-100 eng

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A30600
